

CRISIS 2010 IS A BOURGEOIS MEETING TO PREPARE TO BETRAY THE MASSES UNDER THE DISGUISE OF 'MARXISM' 2010 !

WE NEED A WORKERS PARTY WITHOUT THE CAPITALISTS!

WE NEED A REVOLUTIONARY PROGRAMME FOR THE WORKING CLASS TO SEIZE POWER!

Crisis 2010 is a meeting of the bourgeois, of the imperialist funded NGO's to prepare to co-opt workers to defeat the revolutionary masses in Zimbabwe, under the guise of Marxism 2010. Crisis 2010 is a meeting of the Zimbabwe Social Forum, the NCA, the Zimrights, the Zimbabwe Crisis Coalition and other NGO's who are all funded by imperialism. The 'crisis' for imperialism is that the masses are breaking from both the Zanu-PF and the MDC and they do not have a counter-revolutionary group that is strong enough to contain the masses. The imperialists hope to begin to prepare the new leaders of the counter-revolution in Marxism 2010 which will masquerade as a workers meeting but is really a meeting of reactionaries and agents of imperialism, offering themselves for sale to do the job for imperialism of containing and defeating the coming explosion of the working class. The NGO's and ISOZ tied the working class to the capitalist MDC in 1998, when the masses were in uprising; the NGO's and ISOZ tied the masses to the MDC even in during the 2008 uprising of the masses; the NGO's have the aim of corrupting the vanguard and tying the masses to the bourgeois and the agenda of the imperialists to contain our struggle. Down with meetings of the bourgeois which parade as workers meetings! We tie our fate to the exploited masses; we need a single workers party uniting our class brothers and sisters across Africa, a workers party without the bourgeoisie! We need a revolutionary programme for the working class to seize power! We need to expropriate all the imperialist assets and banks in the region, without compensation. place them under workers control! Nationalise the land so all the masses can eat! We need councils of workers, rank and file soldiers and poor peasants like in Madagascar. **No to the bourgeois plan to defeat the workers programme for the Socialist revolution!** To tie the masses to the MDC or the imperialists is to isolate the Malagasy, Mozambican and SA masses and to defeat the workers revolution in Africa.

We cannot have a meeting of speakers from the ZCTU bureaucracy who betrayed the struggle of the David Whitehead textile workers to expropriate the company. Mutero is aligning himself with the scabs of the bosses and the strike breakers of the ZCTU leaders. We cannot have a meeting of speakers of the student leaders of Zinasu who betray the struggle of the students against mass expulsions from the schools! We need to unite the employed, unemployed, students, poor peasants and rank and file soldiers, with delegates in a national congress, to prepare a general strike for a \$ 500 minimum wage, share the work among all who can work, nationalize the land, expropriate all imperialist assets and the banks, place them under workers control; free liberatory education up to the highest level, reinstate all dismissed teachers and students. We need to invite delegates from the working class in the entire region.

In Marxism 2010, Mutero is re-engaging with the traitor Gwisai, with the ISOZ, with the IST, with the ISO, with the strike breaker leaders of the ZCTU and Zinasu, with the imperialist NGO's, who divide us sector by sector, country by country and submit the working class to US imperialism, to the butcher Obama! **Out Mutero from the FLTI! Out the corrupt, class collaborators from the workers movement! Out the pro-imperialist leaders! We are the RIL-FI who stand by the FLTI statement of Mayday 2010!** We call on other rank and file members of RIL-FI and the working class vanguard in Zimbabwe and around the world to reject Crisis 2010 and Marxism 2010 and to join with the FLTI to call for a committee for the refounding of the Fourth International, to call for an all African conference to set up the Fourth International once more on African soil. Forward to working class power!
